Mohamed M'saboue

Data & AI Engineering Student

mohamedmsb6@gmail.com | +212 610-510183 | Casablanca, Morocco

LinkedIn Mohamed M'saboue | **GitHub** momomsb | **Portfolio** msaboue.vercel.app

Education

ENSA El Jadida | Engineering Degree – Computer Science and Emerging Technologies *2024 – Present*

ENSA El Jadida | Integrated Preparatory Program *2022 – 2024*

Lycée El Maarif, Mauritania | Scientific Baccalaureate, with Honors *2021*

Professional Experience

Attijariwafa bank | Data & AI Intern *Jul. – Sep. 2026*
Casablanca, Morocco

- Designed an **AI agent for technical analysis** of the Casablanca Stock Exchange (ReAct agent built with **LangGraph** and **LangChain**).
- Built a technical indicators engine (RSI, MACD, EMA, Bollinger Bands) fed by web-scraped market data stored in **PostgreSQL**.
- Exposed features through a **FastAPI** REST API; implemented a **RAG** module with reranking to answer questions about listed companies.

Ministry of Digital Transformation | Full-Stack Developer Intern *Jul. 2025*
Nouakchott, Mauritania

- Developed an internal meeting management web application to digitize administrative processes (**Laravel**, **React**, **MySQL**).

Projects

Alumni ENSAJ – Predictive Analysis of Career Paths
Web scraping pipeline with LLM-based data structuring, star-schema data warehouse, and graduate employability prediction models (XGBoost, LightGBM, CatBoost).
Stack: Python, Selenium, LLMs, PostgreSQL, Scikit-learn, FastAPI, React

StreamETL – Low-Code Platform for Real-Time ETL Pipelines
Visual design of streaming pipelines executed on Kafka and Spark.
Stack: Python, FastAPI, Kafka, Spark, PostgreSQL, Parquet

Job Market-Driven Course and Skill Recommendation
Analysis of job postings and resumes to recommend the skills and courses to acquire.
Stack: Python, Selenium, BeautifulSoup, PyMuPDF, LLM, MCP server, Streamlit

BI Decision Support System – HIV Data (UNICEF)
Data integration, OLAP modeling and reporting of monitoring data.
Stack: SQL Server, SSIS, SSAS, SSRS, Excel

Technical Skills

- **Programming Languages:** Python, SQL, Java
- **AI & Machine Learning:** LangChain, LangGraph, RAG, NLP, Scikit-learn, TensorFlow
- **Data Engineering:** Kafka, Spark, Hadoop, Talend, MSBI (SSIS, SSAS, SSRS)
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Web & DevOps:** FastAPI, React, Docker, Git, AWS

Certifications & Languages

- AWS Cloud Foundations (AWS, 2026) · GitHub Foundations (DataCamp, 2026) · Foundations: Data, Data, Everywhere (Google, 2026)
- **Arabic:** Native · **French:** Fluent · **English:** Fluent
